**Notes:** Days show the suggested weekly rhythm — we can lock these to exact calendar dates once you confirm a start date. The two reels each go out as the **same video** across IG/FB Reels, TikTok and YouTube Shorts. The LinkedIn newsletter rollout (Tara) runs monthly as a separate pack. Exercise-physiology content is general information, not individual medical advice; sensitive weeks (cancer, chronic pain, mental health) are handled with care and note that programs are individually assessed and supervised. All within AHPRA guidelines — no guaranteed outcomes.
